High Temperature Rack Conveyor Dishwashing Machine

#### **SPECIFIER STATEMENT**

Specified dishwasher will be Hobart CLPS76eN Energy Recovery steam tank heat model with drain water energy recovery (DWER) and Opti-Rinse™. Includes 245 racks per hour capacity, 22" power scrapper, insulated ergonomic cabinet style doors, dirty water indicator, configurable "intelligent" de-lime notification, top mounted computer controls, and NSF approved pot and pan cycle mode. The wash tank utilizes durable precision pressure sensor monitors in lieu of conventional mechanical floats. The 19.5" standard chamber height will accommodate up to (6) standard sheet pans at a time on an open-end sheet pan rack.

#### STANDARD FEATURES

- + 245 racks per hour
- + 22" power scrapper
- + Drain water energy recovery (DWER)
- + Opti-Rinse<sup>™</sup> system
- + Drain water tempering kit
- + Rapid return conveyor drive mechanism
- + Internal stainless steel pressure-less 30 KW booster heater
  - □ Dual point electrical connection standard on 208/60/3 and 240/60/3 voltage machines, when equipped with internal electric booster; single point kits available (see page 3)
  - ☐ Single point connection standard on 480/60/3 voltage machines, when equipped with internal electric booster
- + Large double door opening for ease of cleaning
- + Doors are insulated & hinged with door interlock switches
- + 19.5" chamber height opening (accepts sheet pans)
- Top mounted micro-processor control module
- + Energy saver mode (programmable auto-shut down)
- + Dirty water indicator
- + Manager activated low temperature alert
- + NSF rated configurable pot and pan dwell mode
- + Configurable "intelligent" delime notification
- + Service diagnostics
- + Self-aligning wash manifolds
- + Stainless steel anti-clogging wash arms
- + Removable pump intake screen
- + Stainless steel self-draining pump and impeller
- + Single, sloping scrap screen and deep scrap basket
- + Stainless panels enclose perimeter and bottom
- + Door actuated drain closure
- + Vent fan control
- + Booster heater control
- + Power scrapper vent cowl curtain kit

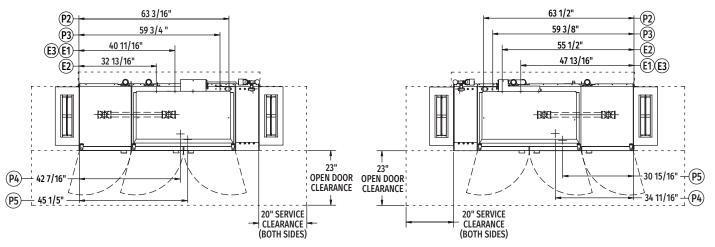

#### **OPTIONS & ACCESSORIES** (Available at extra cost)

- ☐ Standard, short, and extended stainless steel vent hoods
- ☐ Direct drive unloader adds 38" length. Reference spec F39520 for more details
- ☐ Side loader SL23 adds 23" length, SL30 adds 30" length. Reference specs F40926 and F40927 for more details
- □ Blower-dryer adds 331/8" to length. Reference spec F40252 for more details (ships separate from dishmachine, contact Hobart Service for installation)
- ☐ Flanged feet kit (requires two kits)
- ☐ Higher than standard chamber (24" opening)
- ☐ Table limit switch with 10' wire
- ☐ Correctional package (contact Hobart for details)
- ☐ Pressure regulator valve (PRV), for use with external booster
- ☐ Water shock absorber kit
- ☐ Factory-mounted circuit breakers (contact Hobart for details)
- ☐ Field installed single point kits available for 208/60/3 and 240/60/3 machines when equipped with internal booster

## **LEGEND**

Electrical Connections				
Required when machine equipped with SINGLE POINT ELECTRICAL CONNECTION				
E1	Motors, controls AND 30kW booster heater – multiple knockouts provided, 63-3/4" AFF.			
	Required when machine equipped with DUAL POINT ELECTRICAL CONNECTION			
<b>E2</b>	Motors and controls – multiple knockouts provided, 63-3/4" AFF.			
E3	Internal 30kW booster heater – multiple knockouts provided, 63-3/4" AFF.			
Multiple knockouts provided for 2", 1" and 1/2" trade size conduits.				
	Plumbing Connections			
P1	Drain. May be drained to either side of valve, plug opposite side 2" FPT. Recommend a floor drain minimum of 12" from machine for access and maintenance. 7-3/8" AFF.			
P2	Hot water. 1/2" FPT connection. 1/2", 11-3/16" AFF. See plumbing notes for required temperatures.			
Р3	Cold water connection 1/2" FPT, cold water temperature 80°F, maximum 7-3/8" AFF.			
Steam Connections (P4 or P5)				
P4	Steam coils: 10 to 50 PSI flowing, 3/4" FPT, 11-18" AFF.			
P5	Condensate return: A 10 PSI minimum differential pressure across the steam trap must be maintained. 3/4" FPT, 11-1/8" AFF one connection. (One bucket type trap furnished).			
Vent Connections				
V1	Optional vent hoods, 4" x 16" vent stack with damper.			

## **SPECIFICATIONS**

**NOTE:** Additional CLeN Voltages and Amperages are available, see document F40972.

**WARNING:** Plumbing and electrical connections should be made by qualified personnel who will observe all the applicable plumbing, sanitary, safety codes and National Electrical Code.

**Plumbing Notes:** Minimum incoming water temperatures: 110°F for 30kW internal booster. Building flowing water pressure to dish machine is 20 PSI (+/- 5 PSI).

Single cold water connection supplies both drain water energy recovery and drain water tempering.

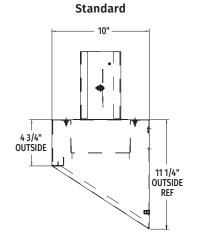

Recommended water hardness to be 3 grains or less for best results.

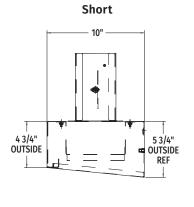

**Steam Heat Only:** Flowing steam pressures above 50 PSI must have a pressure regulator (by others) installed in the steam line.

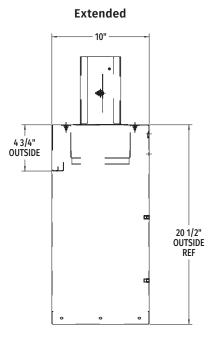

Shut off valve must be supplied (by others) in the steam line to the dish machine.

**Electrical Note:** Dishmachine not provided with internal GFCI protection.

## **VENT HOOD OPTIONS** (Adjustable, vent stack can be adjusted 1" to either side)

As continued product improvement is a policy of Hobart, specifications are subject to change without notice.
